

*** Breast Screening at Mobile Van Update ***

If you have been called for breast screening and usually go to a mobile site, for example Stamford Hospital, please ring to book in on 01733 673068 or 01733 673069 or email us at peh-tr.breastscreening@nhs.net.

Where will my screening be held in 2021?

We are currently offering breast screening at Peterborough City Hospital, in the Breast Clinic & Mobile Van.

When will you come back to my usual location?

Please call the breast screening office to discuss this.

What is the parking like at Peterborough City Hospital?

Due to the fact that there is very limited visitor slots to the hospital, parking has not been a problem. Car Park D is the closest to the Breast Clinic. If you are booked onto the Mobile Van we've also created two FREE parking spaces **for the mobile van clients only** to help with the situation and ensure it's a smooth and timely visit for you.

Can I get a bus to the hospital?

Yes. Get the No. 2 Bus which goes every 12 minutes from Queensgate Station, Bay 1 and it takes 17 minutes to get to the City Hospital. This may vary at weekends.

What days do you run the screening clinics?

We are currently running a 7 day week service for the majority of the time to help make the service as convenient as we can this year. On occasional days we also have later time slots.

Is there anywhere where I/my lift can wait if need be?

Yes, Costa Coffee is now open so you can sit inside there to wait if needed. Although, most appointments are complete within 10 minutes to 30 minutes.
